

COF Series

Caps for Round Tubing and Rods

COF Series finishing caps for round tubing and rods are economical, attractive glides for everything from household and patio furniture to exercise equipment. The caps cover any scratches, burrs or distortions that may result from cutting operations. In addition, they provide protection against injury from sharp rod and tubing edges.

Material: Low-Density Polyethylene **Color:** Black

COF-7/8 DOME only

Caps for Round Tubing and Rods **COF Series**
